

# OFFSHORE DRILLING SPECIALISTS

This infographic shows just a few of the many careers available in the local energy sector

**TOOLPUSHER**

**DRILLER**

**DERRICKHAND**

**ROUGHNECK  
FLOORHAND**

**ROUSTABOUT**

## OFFSHORE DRILLING FLOOR WORKERS

Are responsible for operating and maintaining drilling materials and equipment on the rig.

Formal training is not required; however, completion of a two or three year college program in a technical field is considered an asset. Standard practice is for workers to gain training and qualifications through on-the-job experience.

Workers generally move from the entry-level positions of Roustabout and Roughneck through the ranks to Assistant Derrickhand and Derrickhand, into the senior positions of Driller and Toolpusher.

## WORKER STRENGTHS

- Completion of a 2 – 3 year College Program in a Technical Field
- Hand-Eye Coordination
- Physical Strength
- Ability to Follow Directions and Safety Practices
